Sir:

The Office Action of April 1, 2008 has crossed off certain items on the PTO Form 1449 submitted with the Information Disclosure Statement of January 30, 2008, indicating that the items were not provided in English. However, the Information Disclosure Statement of January 2008 provided a "concise explanation of the relevance" of these items, and that is all that is needed for a consideration of these materials. *See MPEP §609.04*. Accordingly, an additional copy of a form 1449 listing these three references previously denied consideration is provided. The Examiner is earnestly requested response to initial and return this form as quickly as possible, so that these references maybe listed on the face of the issued patent.

Respectfully submitted,

/Harry B. Shubin/
